1 Select **'BOOK A TRIP'** at the top of the page.

2 Enter the **PICK-UP** address and **DELIVERY** address in the address bars at the top.

3 You can select to book a trip for **NOW** or **LATER** by clicking the radio dial button that best suits your taxi needs.

4 You can indicate whether it is a **SINGLE TRIP** or **RETURN TRIP**.

The **RETURN TRIP** option will book 2 separate trips (with reversed route for 2nd trip). In order to create a **RETURN TRIP**, you will be prompted to enter a pickup time for the return leg.

5 **List the number of passengers that require the taxi.**

This lets the dispatcher know if they should send a car or van to do the trip. If you are travelling with luggage, you can also indicate how many bags you have with you so an appropriately sized vehicle is dispatched.

6 The **PASSENGER DETAILS** section should be completed with your **NAME** (last name is optional) and **EMAIL ADDRESS**.

Make sure to add the client's personal information on booking.

Otherwise, updates will be sent to the default contact on the account file.

7 Under **ADDITIONAL DETAILS** this is where you can specify the vehicle type you require. Please note there is also an option for an **ACCESSIBLE** vehicle.

To arrange a Luxe ride, select Company **"Aaron Luxe"** and Vehicle type as **"Luxe"**. Higher rates will apply.

TIPS

1

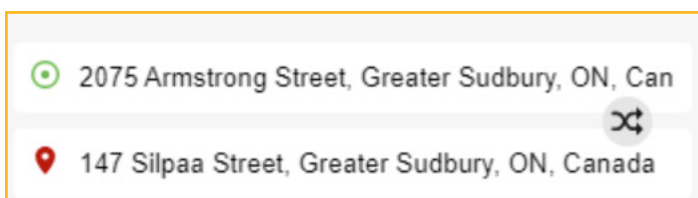

Create similar trips quickly and easily by copying a trip from open or closed bookings. Easily flip addresses using the “swap” icon to make creating return trips simpler.

The screenshot shows the 'Book a trip' interface. At the top, there are three tabs: 'Book a trip' (active), 'Open bookings', and 'Closed'. On the left, there is a sidebar with icons for 'Booking', 'History', and 'Account'. The main content area displays a trip summary for 'Tom Davies Square, Brady Street, Greater Sudbury, ...' and '5000 Air Terminal Drive, Greater Sudbury, Falconbridg...'. It indicates 'Payment: Billed', a duration of '25 MIN', and a cost of 'CAD 82.00'. At the bottom, there are two buttons: 'BACK' and 'CONFIRM'.

2

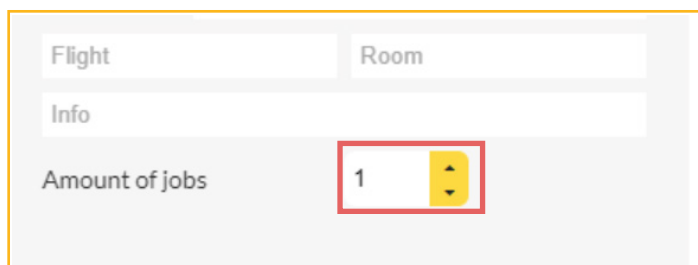

Need more than one vehicle? Easily create multiple bookings under “amount of jobs”. Each booking will be a copy of the original.

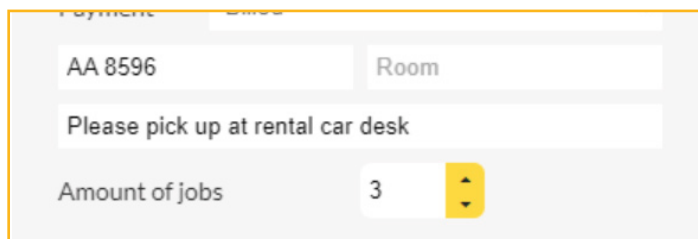

The screenshot shows the address selection interface. It features two address entries: '2075 Armstrong Street, Greater Sudbury, ON, Can' and '147 Silpaa Street, Greater Sudbury, ON, Canada'. A swap icon is visible between the two entries.

3

Always provide as much information as possible to ensure the journey. You can add info such as “pick up at side door”, room numbers or flight numbers right in the booking window.

The screenshot shows the booking form with tabs for 'Flight' and 'Room'. The 'Info' section is visible, showing the 'Amount of jobs' field set to '1'. A red box highlights the 'Amount of jobs' field and its associated dropdown arrow.
